

PRECISION WHEN IT MATTERS MOST

8000A Series

Reusable Finger Clip Pulse Oximetry Sensors

PureSAT® SpO₂ Technology

Adult and Pediatric Sizes

Immediate Response

Nonin 8000A clip fingertip pulse oximetry sensors are reusable and ideal for spot-checking and data collection in situations where the risk of cross-contamination is low. With Nonin PureLight® sensor technology and PureSAT® signal processing technology, you can be sure you're getting accurate results.¹

Measurements you can trust.

Benefits of PureLight® and PureSAT® Technology:

- PureLight® technology eliminates variations in readings to provide accurate results, even under patient conditions such as motion.²
- PureSAT® technology uses intelligent pulse-by-pulse filtering to provide fast and accurate oximetry measurements.³

Compatible with select Nonin pulse oximeters.

Cleaning the sensor between uses is quick and simple.

Form-fitted to decrease ambient light interference.

Self-aligning clips help ensure proper placement.

Choose Nonin. Choose Quality.

Available in two unique sizes:

- 8000AA for Adult Patients (>30 kg/>66 lbs)
- 8000AP for Pediatric Patients (10-40 kg/22-88 lbs)

These sensors provide fast measurements for healthcare providers.

Cable lengths including 1m, 3m, 6m, and 9m.
